

YOU CAN MAKE A DIFFERENCE

Opening our Eyes to

HIDDEN HARM

**EMPOWERING FRONTLINE WORKERS
TO SUPPORT CHILDREN AND YOUNG
PEOPLE AFFECTED BY PARENTAL
PROBLEM ALCOHOL AND OTHER
DRUG USE**

Teachers • GPs • Youth Workers • Sports Coaches
Child Care Services • Family Support Services

ACROSS IRELAND AND NORTHERN IRELAND, THOUSANDS OF CHILDREN AND YOUNG PEOPLE ARE LIVING WITH THE IMPACT OF PARENTAL PROBLEM ALCOHOL OR OTHER DRUG USE.

Children living with parental problem alcohol or other drug use need access to support and advice.

This impact can have a devastating effect on these children and young people and affect them for the rest of their lives.

Adults working with these children and young people can make a significant difference *if they know how.*

The experience of children and young people living with and impacted by parental problem alcohol and other drug use has come to be known as **Hidden Harm**. This is because the harm children and young people experience is often hidden, or if seen, is not recognised as harm. As it is not recognised as harm, these children and young people do not get the support they need.

WHAT WE KNOW ABOUT THE PROBLEM

Hidden Harm is often concealed by shame, fear and stigma or is not picked up. Therefore, the exact number of children and young people affected by parental problem alcohol and other drug use is not fully known.

The research indicates, at the most conservative estimate, that 1 in 11 children and young people are living in a situation where alcohol or other drug use is an issue.

Given the scale of the problem, it is crucial that we identify and support these children and young people.

HOW CHILDREN AND YOUNG PEOPLE ARE AFFECTED

The range of difficulties for those affected by parental problem alcohol and other drug use varies and can include enduring stress and an unpredictable home environment. Sometimes violence can become the norm in families.

‘I was already, at nine years old, covering up, pretending that life inside our house was as pretty as the outside.’ *Katy aged 20.*

Young people can have difficulty in developing trusting relationships. Their experience is that adults let them down and they have to do everything, even provide for themselves.

HOW CAN I RECOGNISE IF A CHILD OR YOUNG PERSON IS BEING AFFECTED?

Signs to look out for

Poor school attendance or late arrival · Unkempt / dirty / inadequate clothing · Homework not done · Hungry · Overly tired or poor concentration · Unexplainable failure / over achieving · No money

Behaviours you may observe

Aggression · Getting into trouble · Overly compliant · Excessively vigilant · Seeking approval or affirmation constantly · Withdrawn · Difficulty mixing with other children and making friends · Taking unhealthy risks · Secretive

Emotions you may notice

Anxious · Sad · Angry · Fearful · Embarrassed · Ashamed · Despairing · Hurt · Flat / Low Mood · Numb

Some other things to look out for

Poor self-esteem · Avoidance · Getting upset, expressing strong opinions or bravado when alcohol or drugs is discussed · Failure to get excited about events · Getting upset around holidays and birthdays · Taking responsibility for siblings, parents or others

THESE PATTERNS COULD BE RELATED TO A PARENT'S PROBLEMATIC ALCOHOL OR OTHER DRUG USE. BE OPEN TO THE POSSIBILITY THAT THERE MAY BE OTHER EXPLANATIONS FOR THESE PATTERNS. HAVING CONCERNS SHOULD TRIGGER FURTHER EXPLORATION, SEEKING ADVICE AND OFFERING SUPPORT.

It is also important to be aware of parental behaviours

Parents can display a lack of engagement or interest, for example, consistent lack of attendance at parents' evenings at school. Parents may also show signs of being under the influence or have frequent hangovers.

WHAT HELPS CHILDREN AND YOUNG PEOPLE?

A stable and supportive adult in their lives, especially a parent who does not engage in problematic alcohol or other drug use

A home high in love, routine, and attention and low in tension, aggression and unpredictability

Good support from extended family members

Supportive wider network such as peers, school and community

Consistent attendance at school

Birthdays and special occasions are remembered and celebrated

Promises are kept and adults don't let children down

Opportunities to build self-esteem, self-worth and confidence

Support to develop coping skills and strategies

Encouragement to believe that they have choices and that they can take some control

Encouragement to make plans for their future and instilment of a sense of optimism

Adverse Childhood Experiences (ACEs) are stressful experiences occurring during childhood, including growing up with parental substance misuse, that have a negative impact on the child which can last well into adulthood. (Bellis et al 2016). The key to addressing ACEs is preventing them or early intervention. For more information see www.safeguardingni.org

MESSAGES CHILDREN AND YOUNG PEOPLE NEED TO HEAR

You are not alone

You are not to blame

You are not betraying anyone
by talking about it

You can still have a good
life regardless of your
parent's continued drinking
or drug taking

There are people who can
help you

Your opinion matters

**Resilience is defined as
the capacity to transcend
adversity** (Gilligan, 1997).

**Coping may not mean
being resilient. For
some, it may mean
doing what you have
to do to get by.**

(Silent Voices, 2012)

An essential element that
supports resilience is that a
young person chooses how
they respond and the support
they use.

It's important to remember that
resilience is a process not a trait
and is open to influence. Adults
in the lives of children and young
people can strengthen their
resilience. You can do this by
instilling in a child and a young
person a sense that

I HAVE... people in my life that
care for me and help me

I AM... a person with inner
strengths of confidence,
self-esteem, responsibility,
autonomy and talent. I am proud
of my identity and culture

I CAN... manage emotions, solve
problems, stick at things and
think things through

FEEDBACK FROM CHILDREN AND YOUNG PEOPLE WHO HAVE BEEN SUPPORTED

“I know that I have to learn to trust people because not everyone is going to let me down.”

“I can talk about my problems more easily now.”

“It made me realise I’ve got plenty of people there for me.”

A SAFE HAVEN

By providing a safe haven for children and young people whose home lives are high in tension, aggression and unpredictability, you can offer them structure which they may lack at home. Such supports include:

Someone to check they are ok · Somewhere to relax · A quiet place to do homework · Extra support for school work ·

Identified adult to talk to · Access to pastoral support / school guidance counsellor · Know that other children are affected by their parents' drinking / drug taking · Access to programmes like breakfast/after school clubs, careers advice and extra curricula activities · The opportunity to play, to have fun, to be a child

WHAT DO I DO IF I AM CONCERNED ABOUT THE CHILD'S SAFETY AND WELLBEING?

The most important thing to do is DO SOMETHING

‘I felt sad and angry. I used to cry at night in bed on my own. Because I didn't like what was happening... I found it hard to sleep at night... family life was hard and lonely.’

Some young people will find it very difficult to talk about what is affecting them. One of the most powerful protective factors is for the child to have a trusted adult in their lives. Identify a member of staff who can be there for the child or young person. Build that supportive

relationship and offer practical supports.

Make sure you have a sound working knowledge of your organisation's child protection policy and talk through your concerns with your manager or your **'Children First Designated Liaison Person.'** Decide on what is the most appropriate course of action.

Effective treatment and a range of other supports for children and young people are available. If you are concerned that a child or young person is at risk as a result of their parent's alcohol or other drug use, you should inform your organisation's child protection and welfare

designated person or the relevant statutory bodies.

If you require further information or training in relation to parental problem alcohol or other drug use, there are a number of agencies that can assist (See Contacts below).
